

Business Rules — Budget Alert Feature

BR-01

The system shall trigger an alert when spending reaches 80% of the monthly budget.

BR-02

Each transaction must belong to exactly one expense category.

BR-03

Monthly budgets reset automatically on the first day of each month.

BR-04

Users may define different budget limits for different expense categories.

BR-05

The system shall store alert history for audit and review purposes.

BR-06

If a user updates a budget amount, the new threshold shall apply immediately.

BR-07

Duplicate alerts shall not be triggered for the same category within the same month.

BR-08

If no budget exists for a category, no alert shall be triggered.
