

User Stories — Budget Alert Feature

US-01 — Create Monthly Budget

User Story

As a user, I want to create a monthly budget for each expense category so that I can manage my spending effectively.

Acceptance Criteria

- user can select expense category
- user can define monthly budget amount
- system saves budget successfully
- budget appears on dashboard

US-02 — Receive Budget Alert

User Story

As a user, I want to receive an alert when my spending reaches 80% of my monthly budget so that I can avoid overspending.

Acceptance Criteria

- Given a user has reached 80% of the monthly budget
- When a new transaction is processed
- Then the system shall generate an in-app alert notification
- only one alert per category per month
- alert is displayed immediately

US-03 — View Alert History

User Story

As a user, I want to view previous budget alerts so that I can review my spending behavior.

Acceptance Criteria

- user can open alert history page
- alerts are listed by date
- alerts display category and threshold information

US-04 — Automatic Expense Categorization

User Story

As a user, I want transactions categorized automatically so that I can track expenses efficiently.

Acceptance Criteria

- every transaction receives one category
- uncategorized transactions are flagged
- users can manually override category assignment
